SUMMARY: Half Yearly Review of the Shires operations for the period ended 31 December 2011, including estimates and budget recommendations to 30th June 2012.

BACKGROUND

Previous Considerations

Monthly Financial Activity Reports July – December 2011

In accordance with r.33A of the *Local Government (Financial Management) Regulations 1996*, a local government is to carry out a review of its annual budget for that year. The terms of reference of the audit committee include a review of the half yearly financial results compared to budget from 1 July 2011 to 31 December 2011.

The Shire of Broome reviews performance on a monthly basis and reports variations through the Monthly Financial Activity Report. In the six (6) months to December 2011 the financial reporting process had recorded 148 budget variations to original estimates, resulting in an accumulated net forecast of \$68,600 in surplus funds.

At the Ordinary Council Meeting 14 December 2011, Council fully allocated the balance of the \$1,208,789 carried forward surplus as 18 budget variations to original estimates, resulting in no change to the accumulated net forecast.

On the advice of the Department for Local Government, a schedule of all prior budget amendments should be included to complete the financial review of the original budget for the period July – December 2011. A schedule of all prior amendments has been included for acceptance by Council.

In addition, Council has received confirmation from the Department of Regional Development and Lands of the 2011-2012 Royalties for Regions Country Local Government Fund, of its individual allocation of \$881,580. This report recommends that Council allocates this funding to the McMahon Estate staff housing project to facilitate its progress and reduce Council's borrowing commitments.

This half yearly report provides commentary of operations by statutory program and sub-program of activity, as an addition to the information already prepared for the regular December Monthly Financial Activity Report.

The intent of the report is to enhance any forecasting variations prepared from July to December, by including specific analysis to detect and comment on potential revisions to the latest budget forecast. Finance has also commented as to the overall favourable or unfavourable outlook for respective activities.

COMMENT

The following are the key organisational indicators from the December Monthly Financial Activity Report of the year-to-date budget position as at 31 December 2011.

Budget Year elapsed 50%

Total Operating Expenditure 48% (Last Year 52%)

Generally operating expenditure at 48% is very favourable at 2% below the half yearly mark, and further positive signs are that it is 4% lower than last year to date.

Total Operating Revenue 85% (Last Year 81%)

The operating revenue figure of 85% is influenced by rates and rubbish services levied in the 2nd quarter, and similarly favourable the operating income is 4% higher than last year to date.

Total Capital Expenditure 15% (Last Year 16%)

Capital expenditure of 15% is similar to last year, however the capital programme is behind schedule to be completed by years end. The areas that have fallen behind at December were Land & Buildings Upgrade 11%, although this area is now progressing well with the works in progress on the Broome Multipurpose Arts & Community Venue; Land & Buildings Renewal 3%, has slowed with staff turnover; Infrastructure Assets New 6%, has been restricted by design staff turnover; Infrastructure Assets Renewal 8% awaiting start on \$500K of rural maintenance reseals; Fixed Plant & Equipment Upgrade 7%, from the deferral of the Chinatown Underground Power project through lack of grant funding \$500K; Fixed Plant & Equipment Renewals 3%, from deferral of the \$139K KRO air conditioner replacement.

Total Capital Revenue 47% (Last Year 51%)

Capital revenues at 47% have been favourably influenced to date by the receipt of construction grants for the BMAV and road construction grants.

Total Sale of Asset Revenue 13% (Last Year 4%)

Sale of asset revenue of 13% indicates the progress of the planned plant replacement program. The progress is more favourable compared to last year and reflects the progress of the mobile plant replacement program which is 41% completed.

Methodology

The methodology of commenting on material exceptions is guided by the policy of Materiality in Financial Reporting 2.1.1.

Any budget forecast estimates from this report will be considered for inclusion and reported as amendments in the following Monthly Financial Activity report.

MID YEAR FINANCIAL REVIEW TO END DECEMBER 2011

Introduction and Methodology

This review is in three sections, these being;

- Operating Budgets by Program – budget amendments recommended.
- Waste Management (Business Unit) – Net movement of funds to/from reserve as a result of variations in operating revenue or expenditure
- Capital Budgets by Program – budget amendments recommended.

The review methodology compares the current amended budget position to forecast actual values and recommends budget amendments where appropriate. The threshold of reporting is in accordance with Materiality in Financial Reporting 2.1.1. The threshold is applied to operating, capital and program items and if appropriate an estimate will be recommended as a budget amendment.

Exclusions

Variations to non-cash items such as profit or loss on sale of assets, accrual items and depreciation are not reported as they have no cash impact on Council's forecast position.

Executive Summary

The net result of all half year review operating estimates and capital estimates is an increase of the forecast deficit \$48,600. Added to the current December forecast of \$68,600 surplus, the net affect of this budget review will be an end of year forecast surplus of \$20,000.

Materiality in Financial Reporting Policy 2.1.1. contains a trigger point when a forecast deficit reaches the equivalent to 1% of Operating Revenue (\$276,500), a specific organisational plan of action is enacted immediately to remedy the situation. The current forecast of a \$20,000 surplus does not require a specific plan of action to bring the budget forecast back into balance at this point in time. Finance staff will continue to monitor results during the remainder of the financial year.

After the Compliance Audit Return (CAR) has been presented to Council, a certified copy of the return, along with the relevant section of the minutes and any additional information detailing the contents of the return are to be submitted to the Department of Local Government by 31 March 2012.

COMMENT

The Compliance Audit for the period 1 January 2011 to 31 December 2011 has been completed and is attached, along with the details of the area of non-compliance and future actions to be implemented to address same.

The 2011 Compliance Audit reveals a compliance rating of 98.7% with 1 area of non-compliance out of the 78 areas audited. This compares to:

- 2010 Compliance Audit – 1 area of non-compliance of 283 areas audited (99.6%)
- 2009 Compliance Audit – 4 areas of non-compliance of 347 areas audited (98.8%)
- 2008 Compliance Audit – 2 areas of non-compliance of 311 areas audited (99.4%)
- 2007 Compliance Audit – 13 areas of non-compliance of 271 areas audited (96.1%)
- 2006 Compliance Audit – 21 areas of non-compliance of 271 areas audited (92.3%)
- 2005 Compliance Audit – 23 areas of non-compliance of 306 areas audited (92.5%)
- 2004 Audit – 18 areas of non-compliance and 147 areas audited (87.8%)

Whilst the structure of the CAR is generally similar to that of previous years, areas of compliance covered by the 2011 return have been reduced to those areas considered high risk. This has resulted in substantially fewer questions.

This return requires the Shire President and the Chief Executive Officer to certify that the statutory obligations of the Shire of Broome have been complied with.

5.1 BUDGET AMENDMENT - OLD SHIRE OFFICE BUILDING RENEWAL

DATE OF REPORT:	27 February 2012

SUMMARY: This report seeks urgent inclusion in the Half Year Review Report of budget increases of \$60,000 for building renewal capital works at the Old Shire Office at 7 Barker Street, for preparation of the facility for Shire staff office accommodation, to be funded from the Building Renewal Reserve.

BACKGROUND

Previous Considerations

SCM 17 August 2011 - Item 9.1.9

COMMENT

In line with the expansion of the operations of the Shire of Broome and its structure and staffing, it was recognised that additional office space was required in order to effectively meet the needs of the organisation and the community. As part of this review and with the existing Lingiari lease approaching renewal and with their removal to accommodation at the Kimberley Regional Office (KRO), the Old Shire Office at 7 Barker Street was seen as an opportunity to service this need as a result of its proximity to the existing Shire Administration building at 27 Weld Street.

In preparation for the relocation of staff into the Old Shire Office and due to the age of the building it has become necessary for the electrical switchboard and system to be renewed, being over thirty years old and is currently below safety standards.

Initial cost estimates for this work have been quoted at \$60,000 in addition to the \$240,000 already budgeted for other building renewal works for the property in the 2011/2012 budget. This capital expenditure will be funded by the Building Renewal Reserve account.

The additional funding from the Building Renewal Reserve account will be offset by the deferral of other reserve funded building renewal capital works including:

- \$7,000 Pearl Luggier Upgrade Construction
- \$31,000 Town Beach Kiosk Building Renewal Construction
- \$22,000 Shire Office Cable Beach Renewal Construction

The advantages of acquiring the additional office space include; satisfying current and future staff office space requirements; increased effectiveness of service delivery to the organisation and community by Shire operations; and the re-alignment of the Ranger Services Department with their Directorate.
