Note 28	Trust Funds	52
Note 29	Other Significant Accounting Policies	53
Note 30	Activities/Programs	54
Note 31	Financial Ratios	55

1. BASIS OF PREPARATION

The financial report comprises general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY All funds through which the Shire controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 28 to these financial statements.

INITIAL APPLICATION OF ACCOUNTING STANDARDS

During the current year, the Shire adopted all of the new and revised Australian Accounting Standards and Interpretations which were compiled, became mandatory and which were applicable to its operations.

These were:

- AASB 1059 Service Concession Arrangements: Grantors - AASB 2018-7 Amendments to Australian Accounting
- Standards Definition of Materiality

The adoption of these standards had no material impact on the financial report.

NEW ACCOUNTING STANDARDS FOR APPLICATION IN FUTURE YEARS

The following new accounting standards will have application to local government in future years:

- AASB 2020-1 Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current
- AASB 2020-3 Amendments to Australian Accounting Standards - Annual Improvements 2018-2020 and Other Amendments
- AASB 2021-2 Amendments to Australian Accounting Standards - Disclosure of Accounting Policies or Definition of Accounting Estimates

It is not expected these standards will have an impact on the financial report.

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

2. REVENUE AND EXPENSES

(a) Grant revenue

Grants, subsidies and contributions are included as both operating and non-operating revenues in the Statement of Comprehensive Income:

	2021	2021	2020

	9,711,973	11,746,269	9,014,173

SIGNIFICANT ACCOUNTING POLICIES

Grants, subsidies and contributions Operating grants, subsidies and contributions are grants, subsidies or contributions that are not non-operating in nature.

Non-operating grants, subsidies and contributions are amounts received for the acquisition or construction of recognisable non-financial assets to be controlled by the local government.

Fees and Charges

Revenue from the use of facilities and charges made for local government services, sewerage rates, rentals,hire charges, fee for service, photocopying charges, licences, rent,ticket sales, sale of goods or information, fines, penalties and administration fees.

2. REVENUE AND EXPENSES (Continued)

(a) Revenue (Continued)	2021 Actual	2021 Budget \$	2020 Actual \$
Contracts with customers and transfers for recognisable non-financial assets Revenue from contracts with customers and transfers to enable the acquisition or construction of recognisable non-financial assets to be controlled by the Shire was recognised during the year for the following nature or types of goods or services:	3	J	Ð
Operating grants, subsidies and contributions	3,920,623	1,987,815	7,223,668
Fees and charges Other revenue	9,098,994 184,953	11,248,209 100,000	8,516,546 126,704

Revenue from contracts with customers and transfers to enable the acquisition or construction of recognisable non-financial assets to be controlled by the Shire is comprised of:			
Revenue from contracts with customers included as a contract liability or			
capital grants at the start of the period	9,875,827	2,428,524	0
Revenue from contracts with customers recognised during the year Revenue from transfers intended for acquiring or constructing	3,328,743	10,907,500	15,866,917
recognisable non financial assets during the year	26,883,370	30,737,197	8,778,233
Information about receivables, contract assets and contract liabilities from contracts with customers along with financial assets and associated liabilities arising from transfers to enable the acquisition or construction of recognisable non financial assets is:	40,087,940	44,073,221	24,645,150
Contract assets Contract liabilities and capital grants from contracts with customers	14,386 (5,176,832)	0 (2,883,692)	0 (9,875,827)

Contract assets primarily relate to the Shire's right to consideration for work completed but not billed at 30 June 2021.

Impairment of assets associated with contracts with customers are detailed at note 2 (b) under 'Other expenditure'.

Contract liabilities for contracts with customers primarily relate to grants with performance obligations received in advance, for which revenue is recognised over time as the performance obligations are met.

Information is not provided about remaining performance obligations for contracts with customers that had an original expected duration of one year or less.

Consideration from contracts with customers is included in the transaction price.

Performance obligations in relation to contract liabilities from transfers for recognisable non financial assets are satisfied as project milestones are met or completion of construction or acquisition of the asset. All associated performance obligations are expected to be met over the next 12 months.

Other interest earnings	68,947	590,512	101,871
	408,171	1,402,174	642,679

SIGNIFICANT ACCOUNTING POLICIES

Interest earnings

Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Interest earnings (continued)

Interest income is presented as finance income where it is earned from financial assets that are held for cash management purposes.

Reserves - cash backed Contract & capital grant liabilities from contracts with	4	30,846,263	31,872,959
customers	15	3,386,304	7,534,020
Bonds and deposits held	14	633,957	617,884
Total restricted assets		34,866,524	40,024,863

SIGNIFICANT ACCOUNTING POLICIES

Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of financial position.

Restricted assets

Restricted asset balances are not available for general use by the local government due to externally imposed restrictions. Externally imposed restrictions are specified in an agreement, contract or legislation. This applies to reserves, unspent grants, subsidies and contributions and unspent loans that have not been fully expended in the manner specified by the contributor, legislation or loan agreement.

To be used for renewal, upgrade or new office equipment, IT hardware and software. To hold funds set aside annually to fund future projects and initiatives for the Kimberley Zone of WALGA and/or Regional Collaborative Groups.

5. OTHER FINANCIAL ASSETS	2021	2020
	\$	\$
(a) Non-current assets		
Financial assets at amortised cost	1,250,000	0
Financial assets at fair value through profit and loss	92,259	89,026
	1,342,259	89,026
Financial assets at amortised cost		
Self supporting loans	1,250,000	0
	1,250,000	0
Financial assets at fair value through profit and loss		
Units in Local Government House Trust	92,259	89,026
	92,259	89,026

Loans receivable from clubs/institutions have the same terms and conditions as the related borrowing disclosed in Note 16(b) as self supporting loans.

SIGNIFICANT ACCOUNTING POLICIES

Other financial assets at amortised cost The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at fair value through profit and loss

The Shire classifies the following financial assets at fair value through profit and loss:

- debt investments which do not qualify for measurement at either
- amortised cost or fair value through other comprehensive income.
- equity investments which the Shire has not elected to recognise fair value gains and losses through other comprehensive income.

Impairment and risk

Information regarding impairment and exposure to risk can be found at Note 26.

6. TRADE AND OTHER RECEIVABLES	2021	2020
	\$	\$
Current		
Rates receivable	1,008,322	1,021,510
Trade and other receivables	2,089,103	4,939,275

Allowance for impairment - rates	(241,258)	(167,704)
Allowance for impairment - sundry debtors	(206,945)	(134,834)
ATO Receivable	477,007	0
	3,101,366	6,155,732
Non-current		
Pensioner's rates and ESL deferred	34,652	37,536
	34,652	37,536

SIGNIFICANT ACCOUNTING POLICIES

Trade and other receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Impairment and risk exposure

Information about the impairment of trade receivables and their exposure to credit risk and interest rate risk can be found in Note 26.

SIGNIFICANT ACCOUNTING POLICIES (Continued)

Classification and subsequent measurement Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

7. INVENTORIES

. INVENTORIES	2021	2020
	\$	\$
Current		
Fuel and materials	57,723	41,188
BRAC Stock	7,427	3,218
	65,150	44,406
The following movements in inventories occurred during the year:		
Balance at beginning of year	44,406	49,463
Additions to inventory	20,744	(5,057)
Balance at end of year	65,150	44,406

SIGNIFICANT ACCOUNTING POLICIES

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

8. OTHER ASSETS

	2021	2020
	\$	\$
Other assets - current		
Prepayments	214,067	95,748
Bonds and deposits held by others	1,800	9,055
	215,867	104,803

SIGNIFICANT ACCOUNTING POLICIES

Other current assets

Other non-financial assets include prepayments which represent payments in advance of receipt of goods or services or that part of expenditure made in one accounting period covering a term extending beyond that period.

9. PROPERTY, PLANT AND EQUIPMENT

Date of Last	Valuation			017 Auril			June 2017	June 2017
Basis of	Valuation			Independent registered	valuer	Independent	registered va l uer	Independent registered valuer
	Valuation Technique			Market approach using recent	properties	Market approach using recent	observable market data for similar properties	Cost approach using depreciated replacement cost
Fair Value	Hierarchy			2 & 2 2	5		5	ო
	Asset Class	(i) Fair Value	Land and buildings	I and/vasted in and under the contro			Buildings - non-specialised	Buildings - specialised

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement.

During the period there were no changes in the valuation techniques used by the local government to determine the fair value of property, plant and equipment using either level 2 or level 3 inputs. Following a change to Local Government (Financial Management) Regulation 17A, plant and equipment type assets (being plant and equipment and furniture and equipment) are to be measured under the cost model, rather than at fair value. This change was effective from 1 July 2019 and represented a change in accounting policy. Revaluations carried out previously were not reversed as it was deemed fair value approximated cost at the date of change.

10. INFRASTRUCTURE

(a) Movements in Balances

Movement in the balances of each class of infrastructure between the beginning and the end of the current financial year.

Date of Last Valuation	June 2018				
Basis of Valuation	Independent registered valuer				
Valuation Technique	Cost approach using depreciated replacement cost				
Fair Value Hierarchy	ю	ო	ო	ო	υ
Asset Class	(i) Fair Value Roads	Footpaths, Carparks & Bridges	Drainage	Recreation Areas	Infrastructure Others

Level 3 inputs are based on assumptions with regards to future values and patterns of consumption utilising current information. If the basis of these assumptions were varied, they have the potential to result in a significantly higher or lower fair value measurement. During the period there were no changes in the valuation techniques used to determine the fair value of infrastructure using level 3 inputs.

11. FIXED ASSETS

SIGNIFICANT ACCOUNTING POLICIES

Fixed assets

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Initial recognition and measurement between mandatory revaluation dates

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5). These assets are* expensed immediately

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets that are land, buildings, infrastructure and investment properties acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework, are recognised at cost and disclosed as being at fair value as management believes cost approximates fair value. They are subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework.

Revaluation

The fair value of land, buildings, infrastructure and investment properties is determined at least every five years in accordance with the regulatory framework. This includes buildings and infrastructure items which were pre-existing improvements (i.e. vested improvements) on vested land acquired by the Shire.

AUSTRALIAN ACCOUNTING STANDARDS - INCONSISTENCY Revaluation (Continued)

At the end of each period the valuation is reviewed and where appropriate the fair value is updated to reflect current market conditions. This process is considered to be in accordance with *Local Government (Financial Management) Regulation 17A (2)* which requires land, buildings, infrastructure, investment properties and vested improvements to be shown at fair value.

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same class of asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Land under roads from 1 July 2019

As a result of amendments to the *Local Government (Financial Management) Regulations 1996*, effective from 1 July 2019, vested land, including land under roads, is treated as right-of-use assets measured at zero cost. Therefore, the previous inconsistency with AASB 1051 in respect of non-recognition of land under roads acquired on or after 1 July 2008 has been removed, even though measurement at zero cost means that land under roads is still not included in the statement of financial position.

Vested improvements from 1 July 2019

The measurement of vested improvements at fair value in accordance with *Local Government (Financial Management) Regulation 17A(2)(iv)* is a departure from AASB 16 which would have required the Shire to measure the vested improvements as part of the related right-of-use assets at zero cost.

Refer to Note 11 that details the significant accounting policies applying to leases (including right-of-use assets).

	12,525,339	11,653,092	11,145,143

SIGNIFICANT ACCOUNTING POLICIES

Depreciation

The depreciable amount of all fixed assets including buildings but excluding freehold land and vested land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These

Depreciation rates

Typical estimated useful lives for the different asset classes for the current and prior years are included in the table below:

Depreciation rates

Depresidion rates
Major depreciation periods used for each class of depreciable asset are:
High Use Vehicles
Ride on Mowers
Cars & Light Vehicles
Trucks Small 2-5 tonne
Trucks Medium 6-12 tonne
Trucks Heavy >12 tonne & Medium Plant
Plant Heavy, Graders, Scrapers, Dozers, etc
Plant Portable (regular use)
Plant Other (low use and/or long life)
Computer Equipment (hardware/software)
Furniture & Equipment
Building Plant & Air Conditioning
Buildings
Buildings - Long Life Structures Infrastructure Fixed:
Formation & Earthworks (roads, reserves, landfill)
Paving, Seals & Services
Road Plant & Bus Shelters
Bridges, jetties and long-life coastal infrastructure
Drainage facilities
Footpaths, Dual Use Paths
Light Plant, Tractors 4 to 12 Tonne
Other Infrastructure & Other Recreation Infrastructure

gains and losses are included in the statement of comprehensive income in the period in which they arise.

Depreciation on revaluation

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways: (a) The gross carrying amount is adjusted in a manner

- that is consistent with the revaluation of the carrying amount of the asset. For example, the gross carrying amount may be restated by reference to observable market data or it may be restated proportionately to the change in the carrying amount. The accumulated depreciation at the date of the revaluation is adjusted to equal the difference between the gross carrying amount and the carrying amount of the asset after taking into account accumulated impairment losses; or
- (b) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

12. LEASES

> 5 years	7,790,833	8,672,792
•	13,822,680	16,026,047

SIGNIFICANT ACCOUNTING POLICIES

The Shire as Lessor

Upon entering into each contract as a lessor, the Shire assesses if the lease is a finance or operating lease.

The contract is classified as a finance lease when the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases not within this definition are classified as operating leases. Rental income received from operating leases is recognised on a straight-line basis over the term of the specific lease. Initial direct costs incurred in entering into an operating lease (eg legal cost, cost to setup) are included in the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.

When a contract is determined to include lease and non-lease components, the Entity applies AASB 15 to allocate the consideration under the contract to each component.

Accrued and other liabilities	112,281	208,272
	7,341,078	6,343,271

SIGNIFICANT ACCOUNTING POLICIES

Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition

Prepaid rates

2021

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

2020

15. OTHER LIABILITIES

	2021	2020
	\$	\$

	5,176,832	9,875,827

SIGNIFICANT ACCOUNTING POLICIES

Contract liabilities

Contract liabilities represent the the Shire's obligation to transfer goods or services to a customer for which the Shire has received consideration from the customer.

With respect to transfers for recognisable non-financial assets, contract liabilities represent performance obligations which are not yet satisfied.

Contract liabilities are recognised as revenue when the performance obligations in the contract are satisfied.

Grant liabilities & developer contribution represent the Shire's performance obligations to construct recognisable non-financial assets to identified specifications which are yet to be satisfied.

SIGNIFICANT ACCOUNTING POLICIES Financial liabilities

Financial liabilities are recognised at fair value when the Shire becomes a party to the contractual provisions to the instrument.

Non-derivative financial liabilities (excluding financial guarantees) are subsequently measured at amortised cost. Gains or losses are recognised in profit or loss.

Financial liabilities are derecognised where the related obligations are discharged, cancelled or expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of the consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Borrowing costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Risk

Information regarding exposure to risk can be found at Note 26.

17. EMPLOYEE RELATED PROVISIONS

(a) Employee Related Provisions	Provision for Annual Leave	Provision for Long Service Leave	Total
	\$	\$	\$
Opening balance at 1 July 2020			
Current provisions	1,496,088	883,792	2,379,880
Non-current provisions	0	280,545	280,545
	1,496,088	1,164,337	2,660,425
Additional provision	(88,765)	(134,154)	(222,919)
Balance at 30 June 2021	1,407,323	1,030,183	2,437,506
Comprises			
Current	1,407,323	837,144	2,244,467
Non-current	0	193,039	193,039
	1,407,323	1,030,183	2,437,506
	2021	2020	
Amounts are expected to be settled on the following basis:	\$	\$	
Less than 12 months after the reporting date	1,256,407	1,927,703	
More than 12 months from reporting date	1,181,099	732,722	
	2,437,506	2,660,425	

Timing of the payment of current leave liabilities is difficult to determine as it is dependent on future decisions of employees. Expected settlement timings are based on information obtained from employees and historical leave trends and assumes no events will occur to impact on these historical trends.

SIGNIFICANT ACCOUNTING POLICIES

Employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at **Other long-term employee benefits (Continued)** rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Provisions

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

18. OTHER PROVISIONS

	Provision for remediation costs	Total
	\$	\$
Opening balance at 1 July 2020		
Non-current provisions	4,802,000	4,802,000
	4,802,000	4,802,000

because of time and the effect of any		
change in the discounted rate	(61,337)	(61,337)
Balance at 30 June 2021	3,183,925	3,183,925
Comprises		
Current	700,158	700,158
Non-current	2,483,767	2,483,767
	3,183,925	3,183,925

Provision for remediation costs

Shire of Broome recognised the future remediation liability for the waste management facility in the statement of financial position as it is probable that an outflow of obligation is certain and the amount at which the settlement will take place can be measured reliably. The liability is reported at the present value of the future net cash outflows that are expected to be required to settle the liability in the normal course of business as per AASB 137. The restoration obligation has been estimated by an independent industry professional and the present value of the future restoration costs is to be reviewed annually and any changes in the estimate are to be reflected in the restoration provision at each reporting date.

19. NOTES TO THE STATEMENT OF CASH FLOWS

Reconciliation of Cash

For the purposes of the Statement of Cash Flows, cash includes cash and cash equivalents, net of outstanding bank overdrafts. Cash at the end of the reporting period is reconciled to the related items in the Statement of Financial Position as follows:

	2021 Actual	2021 Budget	2020 Actual

	227,547	503,322

SIGNIFICANT ACCOUNTING POLICIES

Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not legal ownership, are transferred to the Shire, are classified as finance leases.

Finance leases are capitalised recording an asset and a liability at the lower of the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leases (Continued)

Leased assets are depreciated on a straight line basis over the shorter of their estimated useful lives or the lease term.

Lease incentives under operating leases are recognised as a liability and amortised on a straight line basis over the life of the lease term.

23. RELATED PARTY TRANSACTIONS

Key Management Personnel (KMP) Compensation Disclosure

	2021	2020
The total of remuneration paid to KMP of the	Actual	Actual
Shire during the year are as follows:	\$	\$
Short-term employee benefits	918,166	924,469
Post-employment benefits	80,696	78,026
Other long-term benefits	67,403	50,903
Termination benefits	2,203	38,246
	1,068,467	1,091,644

Short-term employee benefits

These amounts include all salary, fringe benefits and cash bonuses awarded to KMP except for details in respect to fees and benefits paid to elected members which may be found above.

Post-employment benefits

These amounts are the current-year's estimated cost of providing for the Shire's superannuation contributions made during the year.

Other long-term benefits

These amounts represent long service benefits accruing during the year.

Termination benefits

These amounts represent termination benefits paid to KMP (Note: may or may not be *applicable in any given year*).

Transactions with related parties

Transactions between related parties and the Shire are on normal commercial terms and conditions, no more favourable than those available to other parties, unless otherwise stated.

No outstanding balances or provisions for doubtful debts exist in relation to related parties at year end.

The following transactions occurred with related parties:	2021 Actual \$	2020 Actual \$
Sale of goods and services	186,549	298,461
Purchase of goods and services	357,037	2,605,290

Related Parties

The Shire's main related parties are as follows:

i. Key management personnel

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any elected member, are considered key management personnel.

ii. Other Related Parties

An associate person of KMP was employed by the Shire under normal employement terms and conditions.

iii. Entities subject to significant influence by the Shire

An entity that has the power to participate in the financial and operating policy decisions of an entity, but does not have control over those policies, is an entity which holds significant influence. Significant influence may be gained by share ownership, statute or agreement.

26. FINANCIAL RISK MANAGEMENT

This note explains the Shire's exposure to financial risks and how these risks could affect the Shire's future financial performance.

Risk	Exposure arising from	Measurement	Management
Market risk - interest rate	Long term borrowings at variable rates	Sensitivity analysis	Utilise fixed interest rate borrowings
Credit risk	Cash and cash equivalents, trade receivables, financial assets and	555	Diversification of bank deposits, credit limits. Investment policy
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	 Availability of committed credit lines and borrowing facilities

The Shire does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by the CEO under policies approved by the Council. The CEO through Management identifies, evaluates and manages financial risks in close co-operation with the operating divisions. Council have approved the overall risk management policy and provide policies on specific areas such as investment policy.

(a) Interest rate risk

Cash and cash equivalents

The Shire's main interest rate risk arises from cash and cash equivalents with variable interest rates, which exposes the Shire to cash flow interest rate risk. Short term overdraft facilities also have variable interest rates however these are repaid within 12 months, reducing the risk level to minimal.

Excess cash and cash equivalents are invested in fixed interest rate term deposits which do not expose the Shire to cash flow interest rate risk. Cash and cash equivalents required for working capital are held in variable interest rate accounts. Carrying amounts of cash and cash equivalents at the 30 June and the weighted average interest rate across all cash and cash equivalents held disclosed as financial assets at amortised cost are reflected in the table below.

	Weighted Average Interest Rate %	Carrying Amounts \$	Fixed Interest Rate \$	Variable Interest Rate \$	Non Interest Bearing \$
2021 Cash and cash equivalents	0.93%	44,065,529	0	44,065,529	
2020 Cash and cash equivalents	1.50%	43,577,663	0	43,577,663	

Sensitivity

Profit or loss is sensitive to higher/lower interest income from cash and cash equivalents as a result of changes in interest rates.

Impact of a 1% movement in interest rates on profit and loss and equity*
* Holding all other variables constant

Borrowings

Borrowings are subject to interest rate risk - the risk that movements in interest rates could adversely affect funding costs. The Shire manages this risk by borrowing long term and fixing the interest rate to the situation considered the most advantageous at the time of negotiation. The Shire does not consider there to be any interest rate risk in relation to borrowings. Details of interest rates applicable to each borrowing may be found at Note 16(b).

440,655

26. FINANCIAL RISK MANAGEMENT (Continued)

(b) Credit risk

Trade and Other Receivables

The Shire's major receivables comprise rates annual charges and user fees and charges. The major risk associated with these receivables is credit risk – the risk that the debts may not be repaid. The Shire manages this risk by monitoring outstanding debt and employing debt recovery policies. It also encourages ratepayers to pay rates by the due date through incentives.

Credit risk on rates and annual charges is minimised by the ability of the Shire to recover these debts as a secured charge over the land, that is, the land can be sold to recover the debt. Whilst the Shire was historically able to charge interest on overdue rates and annual charges at higher than market rates, which further encourage payment.

The level of outstanding receivables is reported to Council monthly and benchmarks are set and monitored for acceptable collection performance.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

The expected loss rates are based on the payment profiles of rates and fees and charges over a period of 36 months before 1 July 2020 or 1 July 2021 respectively and the corresponding historical losses experienced within this period. Historical credit loss rates are adjusted to reflect current and forward-looking information on macroeconomic factors such as the ability of ratepayers and residents to settle the receivables. Housing prices and unemployment rates have been identified as the most relevant factor in repayment rates, and accordingly adjustments are made to the expected credit loss rate based on these factors.

The loss allowance as at 30 June 2021 for rates receivable was determined as follows:

30 June 2021	Current	More than 1 year past due	More than 2 years past due	More than 3 years past due	Specific provision	Total
Rates receivable Expected credit loss Gross carrying amount Loss allowance	2% 22,028 441	5% 560,555 28,028	8% 123,785 9,903	10% 110,074 11,007	191,880 191,880	1,008,322 241,258
30 June 2020 Rates receivable Expected credit loss Gross carrying amount Loss allowance	2% 1,810 36	5% 688,282 34,414		10% 84,300 8,430	0 116,505	878,374 167,704

The loss allowance as at 30 June 2021 and 30 June 2020 was determined as follows for trade receivables.

	Current	More than 30 days past due	More than 60 days past due	More than 90 days past due	Specific provision	Total
30 June 2021						
Trade and other receivables						
Expected credit loss	2%	5%	10%	15%		
Gross carrying amount	1,588,315	70,903	49,015	251,927	128,943	2,089,103
Loss allowance	31,766	3,545	4,902	37,789	128,943	206,945
30 June 2020						
Trade and other receivables						
Expected credit loss	2%	5%	10%	15%		
Gross carrying amount	4,867,675	96,166	24,282	69,981		5,058,104
Loss allowance	97,354	4,808	2,428	10,497	19,747	134,834

26. FINANCIAL RISK MANAGEMENT (Continued)

(c) Liquidity risk

Payables and borrowings

Payables and borrowings are both subject to liquidity risk – that is the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due. The Shire manages this risk by monitoring its cash flow requirements and liquidity levels and maintaining an adequate cash buffer. Payment terms can be extended and overdraft facilities drawn upon if required and disclosed in Note 16(d).

The contractual undiscounted cash flows of the Shire's payables and borrowings are set out in the liquidity table below. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

<u>2021</u>	Due within 1 year \$	Due between <u>1 & 5 years</u> \$	Due after 5 years \$	Total contractual cash flows \$	Carrying values \$
Payables Borrowings	7,341,078 859,957 8,201,035	0 2,250,089 2,250,089	0 <u>3,180,818</u> 3,180,818	7,341,078 6,290,864 13,631,942	7,341,078 6,290,864 13,631,942
<u>2020</u>					
Payables Borrowings	6,343,271 945,498 7,288,769	0 <u>1,708,467</u> 1,708,467	0 <u>1,841,960</u> 1,841,960	6,343,271 4,495,925 10,839,196	6,343,271 4,109,956 10,453,227

27. INITIAL APPLICATION OF AUSTRALIAN ACCOUNTING STANDARDS

During the year, the Shire adopted all of the new and revised Australian Accounting Standards and Interpretations which were compiled, became mandatory and which were applicable to its operations.

(a) AASB 1059 Service Concession Arrangements: Grantors

No service concession arrangement have been identified.

28. TRUST FUNDS

Funds held at balance date which are required to be held in trust and which are not included in the financial statements are as follows:

	1 July 2020 Amounts Received A		Amounts Paid	30 June 2021
	\$	\$	\$	\$
Town Planning Related Bond Deposits	102,437	4,125	0	106,562
Cash In Lieu Of Public Open Space	100,209	0	0	100,209
Unclaimed Monies	2,360	0	(2,360)	0
BRB Levy	4,941	0	(4,941)	0
	209,947	4,125	(7,301)	206,771

29. OTHER SIGNIFICANT ACCOUNTING POLICIES

a) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

b) Current and non-current classification

The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

c) Rounding off figures

All figures shown in this annual financial report, other than a rate in the dollar, are rounded to the nearest dollar. Amounts are presented in Australian Dollars.

d) Comparative figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

When the Shire applies an accounting policy retrospectively, makes a retrospective restatement or reclassifies items in its financial statements that has a material effect on the statement of financial position, an additional (third) statement of financial position as at the beginning of the preceding period in addition to the minimum comparative financial statements is presented.

e) Budget comparative figures

Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

f) Superannuation

The Shire contributes to a number of Superannuation Funds on behalf of employees. All funds to which the Shire contributes are defined contribution plans.

g) Fair value of assets and liabilities

Fair value is the price that the Shire would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset or liability (i.e. the market with the greatest volume and level of activity for the asset or liability) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

h) Fair value hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The Shire selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the Shire are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

Valuation techniques that convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of the service capacity of an asset.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the Shire gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability are considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

i) Impairment of assets

In accordance with Australian Accounting Standards the Shire's cash generating non-specialised assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

For non-cash generating specialised assets that are measured under the revaluation model ,such as roads, drains, public buildings and the like, no annual assessment of impairment is required. Rather AASB 116.31 applies and revaluations need only be made with sufficient regulatory to ensure the carrying value does not differ materially from that which would be determined using fair value at the end of the reporting period.

30. ACTIVITIES/PROGRAMS

Shire operations as disclosed in these financial statements encompass the following service orientated activities/programs.

PROGRAM NAME AND OBJECTIVES GOVERNANCE	ACTIVITIES
To provide a decision making process for the efficient allocation of scarce resources.	Administration and operation of facilities and services to members of council; other costs that relate to the tasks of assisting elected members and ratepayers on matters which do not concern specific council services.
GENERAL PURPOSE FUNDING To collect revenue to allow provision of services.	Rates, general purpose government grants and interest revenue.
LAW, ORDER, PUBLIC SAFETY To provide services to help ensure a safer and environmentally conscious community.	Supervision of various by-laws, fire prevention, emergency services and animal control.
HEALTH To provide an operational framework for environmental and community health.	Food quality, eating house inspection, pest control and child health clinics.
EDUCATION AND WELFARE To provide services to disadvantaged persons, the elderly, children and youth.	Facilities for senior citizens aged care, infant, day care centres, pre-school; assistance to play group and other community services and development activities.
HOUSING	
To provide and maintain staff housing.	Provision of staff housing.
COMMUNITY AMENITIES To provide services required by the community.	Rubbish collection services, tip operation, administration of the town planning scheme, maintenance of cemeteries, storm water drainage maintenance, sanitation maintenance and environmental protection.
RECREATION AND CULTURE To establish and effectively manage infrastructure and resource which will help the social being of the community.	Operation/maintenance of halls, Broome Recreation and Aquatic Centre (BRAC), various parks and reserves, beaches, library, museum and other cultural activities.
TRANSPORT To provide safe, effective and efficient transport services to the community.	Construction and maintenance of streets, roads, bridges, footpaths and street lighting.
ECONOMIC SERVICES To help promote the Council's economic well being.	The regulation and provision of tourism facilities, area promotion and building control.
OTHER PROPERTY AND SERVICES To monitor and control Council's overheads operating accounts.	Private works and provision of unclassified civic building facilities. General Administration support for Council's operations, allocated to other functions. Engineering, works and parks and

Auditor General

INDEPENDENT AUDITOR'S REPORT 2021 Shire of Broome

To the Councillors of the Shire of Broome

Report on the audit of the annual financial report

Opinion

I have audited the financial report of the Shire of Broome (Shire) which comprises:

- the Statement of Financial Position at 30 June 2021, the Statement of Comprehensive Income by Nature or Type, Statement of Comprehensive Income by Program, Statement of Changes in Equity, Statement of Cash Flows and Rate Setting Statement for the year then ended
- Notes comprising a summary of significant accounting policies and other explanatory information
- the Statement by the Chief Executive Officer.

In my opinion the financial report of the Shire of Broome:

- is based on proper accounts and records
- fairly represents, in all material respects, the results of the operations of the Shire for the year ended 30 June 2021 and its financial position at the end of that period in accordance with the *Local Government Act 1995* (the Act) and, to the extent that they are not inconsistent with the Act, Australian Accounting Standards.

Basis for opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the Auditor's responsibilities section below. I am independent of the Shire in accordance with the *Auditor General Act 2006* and the relevant ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to my audit of the financial report. I have also fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Chief Executive Officer and Council for the financial report

The Chief Executive Officer (CEO) of the Shire is responsible for the preparation and fair presentation of the financial report in accordance with the requirements of the Act, the Regulations and Australian Accounting Standards. The CEO is also responsible for managing internal control (as required by the CEO) to ensure the financial report is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the CEO is responsible for assessing the Shire's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the State Government has made decisions affecting the continued existence of the Shire.

The Council is responsible for overseeing the Shire's financial reporting process.

Auditor's responsibility for the audit of the financial report

As required by the *Auditor General Act 2006*, my responsibility is to express an opinion on the financial report. The objectives of my audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

A further description of my responsibilities for the audit of the financial report is located on the Auditing and Assurance Standards Board website. This description forms part of my auditor's report and can be found at https://www.auasb.gov.au/auditors_responsibilities/ar4.pdf.

Report on other legal and regulatory requirements

In accordance with the Local Government (Audit) Regulations 1996 I report that:

- (i) The following material matter indicating non-compliance with Part 6 of the Act, the Regulations or applicable financial controls of any other relevant written law were identified during the course of my audit:
 - a) Staff acting in higher duties had capacity to approve their own timesheet and were paid at a rate that was higher than their approved higher duties form. Staff also authorised bank payments while acting in higher duties capacity however, there was no further documentation to support the arrangement, or the relevant documentation was approved after the arrangement. This increased the risk of unauthorised and incorrect payroll payments, fraud and or errors occurring without being detected.
 - b) Due to issues with the current payroll system, several complex journals are required to correct and balance the general ledger accounts. During the year, payroll reconciliations were not timely and formally signed due to these balancing issues; instead, correcting journals were posted at year end. This increased the risk that processing errors of employee costs and leave balances may not be timely or appropriately corrected.
 - c) Documentation to support procurement decision making such as quotations and procurement plans could not be provided for some samples tested. This practice increased the likelihood of not receiving value for money in procurement and/or pricing change between quotation and invoicing.
 - d) Sufficient and appropriate documentation to support journal adjustments was not always readily available. We also noted several journals processed by the IT Vision service provider which were not formally reviewed by the Shire for appropriateness. This increased the risk of erroneous transactions or fraud occurring without detection.
 - e) SynergySoft system purchasing delegation limits are not always aligned with authorised purchasing delegation limits. In addition, we found that some staff acting on higher duties arrangements appeared to have inappropriate levels of access, with potential to bypass system segregation of duties controls. This increased the risk of inappropriate approval of transactions and or fraudulent transactions occurring, which may result in financial loss.
 - f) There is no evidence that the ordering of goods was approved prior to ordering as purchase orders were dated on or after the suppliers' invoices were received.
 - g) A modification was made to vendor bank accounts details on the weekend and the bank account details were not independently checked prior to payment. Several staff are authorised to make purchases up to \$2,000 (without second authorisation), and bank details for these transactions are not checked. There are several duplicated suppliers, and suppliers that have never been used within the supplier masterfile. This increased the risk of erroneous transactions or fraud occurring without detection.
 - h) SynergySoft user access is not periodically reviewed to ensure ongoing access continues to be appropriate. Further, network access had not, in all cases, been disabled for former employees. Whilst the remote access server records remote logins and unsuccessful login attempts, there is no evidence that these are reviewed. This increased the risk of inappropriate or unauthorised access to the Shire's IT systems and/or information, and thereby the confidentiality, integrity, and availability of the Shire's information.
 - i) Formal review needs to be performed to determine whether Town Planning bonds need to be held in trust or returned. The Shire is not recognising the trust funds in accordance with s6.9(1) of the Local Government Act 1995
- (ii) All required information and explanations were obtained by me.
- (iii) All audit procedures were satisfactorily completed.
- (iv) In my opinion, the Asset Consumption Ratio and the Asset Renewal Funding Ratio included in the financial report were supported by verifiable information and reasonable assumptions.

Other information

The other information is the information in the entity's annual report for the year ended 30 June 2021, but not the financial report and my auditor's report. The CEO is responsible for the preparation and the Council for overseeing the other information.

My opinion does not cover the other information and, accordingly, I do not express any form of assurance conclusion thereon.

Matters relating to the electronic publication of the audited financial report

This auditor's report relates to the financial report of the Shire of Broome for the year ended 30 June 2021 included on the Shire's website. The Shire's management is responsible for the integrity of the Shire's website. This audit does not provide assurance on the integrity of the Shire's website. The auditor's report refers only to the financial report described above. It does not provide an opinion on any other information which may have been hyperlinked to/from this financial report. If users of the financial report are concerned with the inherent risks arising from publication on a website, they are advised to refer to the hard copy of the audited financial report to confirm the information contained in this website version of the financial report.
