### Residents to enjoy Annual Christmas Trails

The popular Annual Chinatown Christmas Trails event is sure to get Broome into the festive spirit and will be held on Friday, December 4.

Taking place from 4-7pm on Carnarvon Street, Dampier Terrace, Male Oval and Johnny Chi Lane, the event is proudly presented by the Chinatown Revitalisation Project, Inpex-operated Ichthys LNG and Horizon Power.

Santa and his elves will be in attendance, with face painting, live entertainment and special guests making it a fun day for all the family.

For more information, visit [www.chinatownbroome.com.au](http://www.chinatownbroome.com.au).

### Djuki Mala a major success

Broome residents turned out in record numbers to enjoy four sell-out shows as the amazing Djuki Mala whirlwind took our town by storm last month.

The Indigenous dance sensations from North East Arnhem Land held four shows in Broome in front of packed crowds on November 20-22.

It was the first time in the Broome Civic Centre's history that a single performance sold out four consecutive shows.

The Civic Centre team are working hard on an exciting calendar of events for 2021 - for more information, visit [www.broomeciviccentre.com.au](http://www.broomeciviccentre.com.au).

### Be smart as wet season approaches

The Shire of Broome would like to remind residents to prepare for potential cyclonic events as the wet season gets into full swing.

Residents are encouraged to think ahead and tidy their properties in preparation for wet and windy weather.

Shire Rangers will be visiting properties where there is a concern of loose materials to ensure occupants are making their homes safe.

For more information, visit [www.broome.wa.gov.au](http://www.broome.wa.gov.au) and search for 'cyclones'.

## Shire to host Community Safety Forum next week

# HAVE YOUR SAY!

**COMMUNITY SAFETY FORUM**  
MONDAY 7TH DECEMBER  
6.00PM - 9.00PM  
Broome Civic Centre

The Shire of Broome will be hosting a Community Safety Forum next week as part of the engagement process seeking feedback on the Draft Community Safety Plan 2021 - 2025.

The plan has been developed following the results of the Shire's Community Perceptions Survey - with public safety the number one issue highlighted by respondents. Feedback received at the forum will be used to shape the final document.

A number of State Government Ministers have been invited to attend, which will provide a further opportunity for the community's voice to be heard.

At last year's Annual Elector's Meeting in December 2019, community angst was identified and a motion was passed to hold a Community Forum, attended by State Government Ministers, to address public safety in Broome.

Shire of Broome president Harold Tracey, who will chair the meeting, said the Shire is committed to getting the relevant agencies in the room and letting residents have their say.

"It is critical that the community's concerns are heard

directly by the agencies best placed to drive solutions and change," he said.

"Equally, these agencies will have an opportunity to respond with updates on work currently being done."

Cr Tracey acknowledged there had been significant community interest in the subject of public safety and other attempts to arrange a similar event

"I know there is a lot of angst, high emotion and sensitivities regarding this subject and the Shire wants to assist in coordinating a unified approach to finding a solution," he added.

"It is critical that community concerns are heard, and action is pursued in a cohesive manner."

The Community Safety Forum will be held at the Broome Civic Centre on December 7 from 6pm - 9pm, and will align with the relevant COVID-19 restrictions for public events.

People must register a place to attend - click the 'Have your say' tab at [www.broome.wa.gov.au](http://www.broome.wa.gov.au) to book your place.

## Major road upgrade project completed on time

Major works on the reconstruction of McDaniel Road in the Broome Heavy Industrial Area was completed on November 20.

It is designated as a RAV 10 network triple road train route and the project was identified in Roads 2030 as a local priority.

The \$4 million project has been completed earlier than initially anticipated and has been fast-tracked to save Broome ratepayer funds.

Shire of Broome president Harold Tracey said the overhaul works were critical to ensure a high standard of local road networks and provide essential access to our town's port and industrial areas.
