## SHIRE OF BROOME FOR THE YEAR ENDED 30 JUNE 2022

#### **BASIS OF PREPARATION**

The budget has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The Local Government Act 1995 and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The Local Government (Financial Management) Regulations 1996 specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero

Accounting policies which have been adopted in the preparation of this budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities

#### THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the Shire of Broome controls resources to carry on its functions have been included in the financial statements forming part of this budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 14 to the budget.

#### 2020/21 ACTUAL BALANCES

Balances shown in this budget as 2020/21 Actual are estimates as forecast at the time of budget preparation and are subject to final adjustments.

#### **CHANGE IN ACCOUNTING POLICIES**

On the 1 July 2021 no new accounting policies are to be adopted and no new policies are expected to impact the annual budget.

#### **KEY TERMS AND DEFINITIONS - NATURE OR TYPE**

#### **REVENUES**

#### RATES

All rates levied under the *Local Government Act 1995*. Includes general, differential, specified area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts and concessions offered. Exclude administration fees, interest on instalments, interest on arrears, service charges and sewerage rates.

#### PROFIT ON ASSET DISPOSAL

Profit on the disposal of assets including gains on the disposal of long term investments. Losses are disclosed under the expenditure classifications.

#### OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Refer to all amounts received as grants, subsidies and contributions that are not non-operating grants.

#### NON-OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Amounts received specifically for the acquisition, construction of new or the upgrading of non-current assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

#### **REVENUES (CONTINUED)**

#### **FEES AND CHARGES**

Revenue (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees. Local governments may wish to disclose more detail such as rubbish collection fees, rental of property, fines and penalties, other fees and charges.

#### INTEREST EARNINGS

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors

#### OTHER REVENUE / INCOME

Other revenue, which can not be classified under the above headings, includes dividends, discounts, and rebates. Reimbursements and recoveries should be separated by note to ensure the correct calculation of ratios.

#### **EXPENSES**

#### **EMPLOYEE COSTS**

All costs associated with the employment of person such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences safety expenses, medical examinations, fringe benefit tax, etc.

#### **MATERIALS AND CONTRACTS**

All expenditures on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc. Local governments may wish to disclose more detail such as contract services, consultancy, information technology, rental or lease expenditures.

#### UTILITIES (GAS, ELECTRICITY, WATER, ETC.)

Expenditures made to the respective agencies for the provision of power, gas or water. Exclude expenditures incurred for the reinstatement of roadwork on behalf of these agencies.

#### INSURANCE

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

#### LOSS ON ASSET DISPOSAL

Loss on the disposal of fixed assets includes loss on disposal of long term investments.

#### DEPRECIATION ON NON-CURRENT ASSETS

Depreciation and amortisation expense raised on all classes of assets.

#### **INTEREST EXPENSES**

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expenses.

#### OTHER EXPENDITURE

Statutory fees, taxes, provision for bad debts, member's fees or State taxes. Donations and subsidies made to community groups.

All land (other than exempt land) in the Shire of Broome is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire of Broome.

The general rates detailed for the 2021/22 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

#### (c) Objectives and Reasons for Differential Rating

To provide equity in the rating of properties across the Shire the following rate categories have been determined for the implementation of differential rating.

#### Differential general rate

Description	Characteristics	Objects	Reasons
GRV – Residential	This rating category consists of properties located within the townsite boundaries which have a predominantly residential use.	This is the base rate by which all other GRV rated properties are assessed.	Other GRV rating categories have a higher demand on Shire resources and vacant land is encouraged to be developed.
GRV – Vacant	This rating category consists of vacant properties located within the townsite boundaries, including land zoned as Residential, Tourist, Commercial or Industrial.	To encourage land owners to develop vacant land and to reflect the different method used for the valuation of vacant land as compared to the GRV Residential, Commercial and Tourism rate category.	Excessive vacant land leaves subdivisions appearing barren and unsightly, to the detriment of the aesthetics of the area. The rate in the dollar for this category is 83% higher than the GRV
GRV – Commercial	This rating category consists of properties used for Commercial, Town Centre or Industrial purposes and non residential vacant land, excluding properties with a tourism use.	To raise additional revenue to fund the costs associated with the higher level of service provided to properties in this category.	The Shire incurs higher costs to service these areas including car park infrastructure, landscaping and other amenities. In addition, extra costs are also associated with tourism and economic development activities that have a benefit to these ratepayers. The rate in the dollar for this category is 3.6% higher than the GRV –Residential base rate.
GRV – Tourism	This rating category consists of properties with a tourism use within the townsite.	To raise additional revenue to fund the costs associated with the higher reliance on Shire resources and the higher level of service provided to properties in this category.	This category is rated higher than the base rate for GRV to fund costs associated with the heavier use of infrastructure and other Council assets and services in addition to contribution toward tourism promotion activities. The rate in the dollar for this category is 35.5% higher than the GRV –Residential base rate.
UV - Rural	This rating category consists of properties that are exclusively for rural use.	This is the base rate by which all other UV rated properties are assessed.	Other UV rating categories have a higher demand on Shire resources.
UV - Commercial Rural	This rating category consists of properties that are outside of the townsite that have a commercial use inclusive of:	To raise additional revenue to fund the additional cost impacts attributed to the servicing of these properties.	The Shire incurs higher costs in infrastructure maintenance as a result of extra vehicle movements on the shire's road network due to the activities associated with these properties
	<ul><li>Pearling Leases;</li><li>Pastoral leases or Pastoral use;</li></ul>		I

UV – Mining This rating category consists of properties

that are used for mining, exploration or

prospecting purposes.

This rating category consists of properties that are used for mining, exploration or prospecting purposes.

This category is rated higher than UV-Commercial to reflect the higher road infrastructure maintenance costs to Council as a result of frequent heavy vehicle use over extensive lengths of shire roads throughout the year.

#### (d) Differential Minimum Payment

Description	Objects & Reasons
A minimum payment of \$1,220 has been applied to all rating categories except UV-Mining.	The object and reason for this minimum payment is to ensure that all property owners in the Shire of Broome are levied a unified and equitable minimum amount. It is also recognition that every property receives some minimum level of benefit of the works and services provided by the Shire.
A minimum payment of \$500 has been applied to rating category for UVMining.	UV of mining tenements ranges from \$198 to \$448,000 and an average UV of \$20,415. The minimum rate for the UV - Mining category is set at a lower level compared to the other rating categories in order to ensure that the rate burden is distributed equitably between all other property owners paying the minimum amount. This also ensures that less than 50% of the properties in this category are on the minimum rate to ensure compliance with Section 6.35 of the Local Government Act 1995.

Adopted differential rates did not vary from the differential rates as per the local public notice. The Shire of Broome does not levy any Specified Area Rates.

#### 2 (e) NET CURRENT ASSETS (CONTINUED)

#### SIGNIFICANT ACCOUNTING POLICIES

#### **CURRENT AND NON-CURRENT CLASSIFICATION**

An asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

#### TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire of Broome becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

#### PREPAID RATES

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

#### INVENTORIES

#### General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

#### Superannuation

The Shire of Broome contributes to a number of superannuation funds on behalf of employees.

All funds to which the Shire of Broome contributes are defined contribution plans.

#### CONTRACT ASSETS

A contract asset is the right to consideration in exchange for goods or services the entity has transferred to a customer when that right is conditioned on something other than the passage of time.

#### TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Trade receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

#### **PROVISIONS**

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

#### **EMPLOYEE BENEFITS**

#### Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

#### CONTRACT LIABILITIES

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

#### 3. RECONCILIATION OF CASH

For the purposes of the Statement of Cash Flows, cash includes cash and cash equivalents, net of outstanding bank overdrafts. Estimated cash at the end of the reporting period is as follows:

#### SIGNIFICANT ACCOUNTING POLICES

#### **CASH AND CASH EQUIVALENTS**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 2 - Net Current Assets.

#### FINANCIAL ASSETS AT AMORTISED COST

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

#### 4. FIXED ASSETS

#### (a) Acquisition of Assets

The following assets are budgeted to be acquired during the year.

#### SIGNIFICANT ACCOUNTING POLICIES

#### RECOGNITION OF ASSETS

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A* (5). These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

#### DEPRECIATION

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

## 15. SIGNIFICANT ACCOUNTING POLICIES - OTHER INFORMATION

#### **GOODS AND SERVICES TAX (GST)**

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

#### **CRITICAL ACCOUNTING ESTIMATES**

The preparation of a budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

#### **ROUNDING OFF FIGURES**

All figures shown in this statement are rounded to the nearest dollar.

#### **COMPARATIVE FIGURES**

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

#### **BUDGET COMPARATIVE FIGURES**

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.
