

## What's Happening

In the Shire of Broome?

**Giggles galore at Civic Centre**

Hysterical kids' comedian Mr Snot Bottom arrives at Broome Civic Centre this July school holidays, with a hilarious show not to be missed.

Imagine all the slimy, yucky, ooey, gooey topics kids love, bundled into an entertaining skit for parents and children to enjoy together.

The show includes funny routines and songs about family relationships that everyone can have a laugh at – whether that is laughing at each other or with each other.

Mark Trenwith (Mr Snot Bottom) is a stand-up comedian with 15 years' experience who developed the show while working as 'Captain Starlight' - a superhero who visits children's hospitals around Australia.

To celebrate Mr Snot Bottom coming to Broome, the Civic Centre is running a colouring-in competition, with the lucky prize winner receiving free popcorn and a drink for the show.

The winner of the colouring-in competition will be announced on the morning of July 12.

Shire of Broome president Harold Tracey said Mr Snot Bottom was a multi-generational comedy show for all to appreciate.

"This production has the greatest elements you'd hope for in kids' entertainment," he said.

"It was nominated for best children's event at the 2020 Perth Fringe Festival.

"What better timing than the school holidays to have a family outing together and what better place than the Civic Centre?

"Broome school holiday activities are very popular and tickets are selling fast.

"Buy your tickets now and get the kids colouring-in to have chance to win a special prize."

Mr. Snot Bottom is at the Broome Civic Centre on Tuesday, July 12 from 6:00pm. The kiosk/gates opens at 5pm. To book your tickets or find out more about the event, visit <https://bit.ly/39Y4yF5>.

The colouring-in competition starts today, please scan the QR code in the image to download the colouring sheet of your choice and email your finished artwork to [shire@broome.wa.gov.au](mailto:shire@broome.wa.gov.au) before 4pm on July 11.

## Selfless funding contributions a ray of light for Broome sport

Broome's sporting community now has extra opportunities for training and competition after the recent completion of two lighting projects.

The Shire of Broome has installed new lighting at both the Nipper Roe Sports Field at BRAC and the Pump Track.

The \$1.4 million Nipper Roe eight-pole field lighting system is designed to meet the AFL Preferred Facility Guidelines of 150 lux.

The project was funded by the Shire, the State Government's Community Sport and Recreation Facilities Fund (CSRFF), the AFL's Facility Funding Program and through a contribution received from Development WA.

Broome contractor Able Electrical completed the upgrade, supporting the Shire's objective to engage local businesses.

The \$130,000 Pump Track lighting project was funded by the Federal Government's Safer Community Fund.

The Pump Track project was completed last October thanks to funding from the Shire, the State

Government's CSRFF, Development WA and the Commonwealth Bank.

Local companies McCorry Brown, H&M Tracey, MNC and Roadline also kindly provided in-kind works at no cost.

Shire of Broome president Harold Tracey said improving sporting infrastructure had been a priority in recent years.

"The Nipper Roe Lighting installation was essential to facilitate the continued growth in participation in field sports and optimisation of the entire BRAC playing fields," he said.

"The lights are live and oval bookings are already locked in ahead of the busy dry season sporting calendar.

"Having additional lighting at the Pump Track and Nipper Roe oval gives the community peace of mind for evening sports.

"It is exciting to see what further recreation upgrades are to come in the future, to provide a future for everyone in Broome sport."

## Precinct Plans – Register your interest to be involved

The Shire of Broome is about to embark on a review of the development strategies for Cable Beach and Chinatown/Old Broome.

The review of these development strategies will result in the preparation of two new precinct plans for the Cable Beach and Chinatown/Old Broome Precincts.

A Precinct Plan is a planning tool used to guide areas that have been identified for more intensity of development to ensure they are carefully planned, designed and developed to achieve good building, open space and transport outcomes.

The development of the precinct plans may result in changes to the Shire's existing planning controls and we want the community to be a part of the process.

There will be several ways the community can get involved; information on dates and times will follow:

- Visioning and values – An opportunity for you to share your thoughts and ideas on what you value about these areas and your vision for the future.
- Design development – An opportunity to provide input and feedback on design concept options for the precincts which would be incorporated into the precinct plans.
- Draft precinct plans – An opportunity to provide feedback on the draft precinct plans when they are advertised for public comment.

While every stage of the engagement is important, we strongly encourage people to participate early when there is the greatest possible opportunity to help shape and inform the preparation of the precinct plans.

Register your interest by e-mailing [shire@broome.wa.gov.au](mailto:shire@broome.wa.gov.au).
